

Data Migration Readiness & Reconciliation

Release 1 active/open operational data

Portfolio project based on Juniper Vale Home Services, a fictional field-service company. Business data is synthetic.

16,162 eligible rows	99.845% Cycle 1 row rate	25 critical rejects	100% Cycle 2 reconciliation
--	--	---	---

Cycle 1 issue	Rows	Disposition
Customer validation	8	Correct source values and rerun
Service-plan customer reference	11	Repair missing/invalid customer relationship
Work-order service alias	6	Map to approved service values

Readiness decision

Cycle 1 did not pass because the remaining errors were critical to operational records and relationships. After remediation, Cycle 2 reconciled all eligible rows and control totals.

The workbook behind this summary contains the data inventory, source-to-target mapping, profiling, cleansing log, migration cycles, exception detail, reconciliation and generation record.
